<i>Introduction: Teaching Information Literacy, An Open Challenge</i>	xxi

PART I PERSPECTIVES ON INFORMATION LITERACY TEACHING **1**

1. Information Literacy and Critical Thinking: Context and Practice **3**

A. Grafstein

1.1 Introduction	3
1.2 Background and History	5
1.3 Information Literacy Standards and Rubrics	7
1.4 Information Literacy Contextualized	11
1.5 Critical Thinking: Research in Context	15
1.6 Conclusion	25
References	26

2. Inquiry Learning: A Pedagogical and Curriculum Framework for Information Literacy **29**

M. Lupton

2.1 Introduction	29
2.2 Inquiry and the Need for Information	30
2.3 Inquiry Learning Pedagogy	31
2.4 Generative Questioning Frameworks: Teaching Strategies and Techniques	37
2.5 Generic, Situated, Transformative, and Expressive Windows	45
2.6 Implementing Inquiry Learning	46
2.7 Conclusion	48
References	49

3. Information Literacy and Flipped Learning **53**

S. Kurbanoglu and B. Akkoyunlu

3.1 Introduction	53
3.2 Blended Learning	54

3.3	Flipped Learning	56
3.4	Conclusions and Recommendations	77
	Acknowledgment	78
	References	78
4.	Inclusion of Information Literacy in the Curriculum Through Learning Communities and Action Research	85
	J. Tarango, J.-L. Evangelista, J.-D. Machin-Mastromatteo and J. Cortés-Vera	
4.1	Introduction	85
4.2	Curricular Inclusion of IL to Transform Academic Activities	88
4.3	Identification of Curricular Transversality	90
4.4	Design and Implementation of Alternative Training Courses on Information Literacy	91
4.5	Designing an Information Literacy Model With a Systemic Vision	92
4.6	From the Traditional Classroom to LC	93
4.7	AR as a Methodology for Asserting Information Skills	96
4.8	Methodology	98
4.9	Didactic Planning Phase	99
4.10	Implementation Phase	101
4.11	Integrating LC	102
4.12	Applying AR in Academic Activities	103
4.13	Academic Evaluation Phase	104
4.14	Analysis of Results: Description of the Main Findings	108
4.15	Conclusions	111
	References	112
5.	The Scoring Rubric for Information Literacy as a Tool for Learning	115
	J. van Helvoort and H. Joosten	
5.1	Introduction	115
5.2	What Is a Rubric and How Can It Be Used?	115
5.3	The Scoring Rubric for Information Literacy	116
5.4	Case of the Bachelor of ICT at the Hague University	118
5.5	Information and Media Studies	119
5.6	How the Rubric Is Used in the Classroom to Assess the Small Assignments (Peer Assessment and Peer Feedback)	120
5.7	Description of the Final Assignment (Summative Assessment)	121
5.8	Business and Management	123
5.9	Discussion	125
	References	126
	Appendix A: Scoring Rubric for Information Literacy	127
	Appendix B: Scoring Rubric for Information Literacy—Report Skills	131

PART II ON INFORMATION LITERACY PROGRAMS	133
6. The Relevance of Communicative Competence in the Context of Information Literacy Programs	135
F.-J. García-Marco	
6.1 Overview	135
6.2 Communication and the Cycle of Knowledge	138
6.3 Communicating Knowledge: General Aspects	141
6.4 Effective Private Communication	146
6.5 Public Presentations: Classes, Seminars, and Conferences	147
6.6 Internet Publishing	148
6.7 Formal Scientific Publication	150
6.8 Providing for Dissemination and Retrieval	151
6.9 Assessment of the Communicative Success: Monitoring Impact and Obtaining Feedback	157
6.10 Implementing the Communicative Competence in IL Programs	159
6.11 Conclusions	163
References	164
7. Information Culture and Information Literacy as a Scientific Direction and a Field of Educational Activities in Russia	167
N. Gendina	
7.1 Main International Approaches to the Information Culture Researches	167
7.2 The History of Formation of Information Culture as an Independent Scientific Direction and Educational Practice in Russia	169
7.3 Information Culture: Multidisciplinarity, Interdisciplinarity, and Transdisciplinarity	173
7.4 Types and Components of Information Culture	175
7.5 Doctrine of Formation of Person's Information Culture	178
7.6 Information Culture as an Academic Discipline	182
7.7 Model of Discipline "Principles of Personal Information Culture"	183
7.8 Media and Information Literacy in the Structure of the Course "Principles of Person's Information Culture": The Experience of the Implementation of UNESCO and IFLA Ideas	186
7.9 Theoretical Complexity of Integrating Media and Information Literacy	187
7.10 Mechanism of Integration of Media Literacy in the Content of the Course "Principles of Person's Information Culture"	190
7.11 Inclusion of Media Literacy Into the Content of the Course "Principles of Person's Information Culture": Problems and Prospects	194
7.12 Conclusion	196
References	198

PART III PRACTICING INFORMATION LITERACY: ACADEMIC AND SCHOLAR CONTEXTS	203
8. Toward a Community of Epistemological Practice: A Case Study of Adult Returners to Higher Education	205
A. Anderson and B. Johnston	
8.1 Introduction	205
8.2 Adult Returners to Higher Education: Transition, Engagement, and CofPs	206
8.3 Our Case Study: Learning and IL Practices in Adult Returners	208
8.4 Learning Strategies	208
8.5 IL: Trust, Authority, Judgment, and Skills	209
8.6 IL and CofPs	214
8.7 Communities of Practice	217
8.8 Epistemological Development: Critical Thinking and Metacognition	220
8.9 Critical Thinking	221
8.10 Conclusion	222
References	223
9. Information Literacy Requirements for Open Science	229
C. Basili	
9.1 Scholarly Information Literacy as a Variable Dependent From Scholarly Communication	229
9.2 Academic Social Media as New Forms of Scholarly Communication	233
9.3 The Open Science Goal	236
9.4 ACRL Framework for Information Literacy for Higher Education as a Basis for Scholarly Inquiry	240
9.5 Scholarly Information Literacy Requirements in the Current Open Science Environment: The Resulting Picture	242
9.6 Concluding Remarks	244
References	245
