List of Figures and Tables	vii
Acknowledgments	ix
1 Discourse domains and their role in knowledge production dissemination and organization	1
1.1 Domain analysis for knowledge organization	1
1.2 Catalysts for domain-analytical thought	2
1.3 Domain analysis formulated as a paradigm for knowledge organization	3
1.4 Domain analysis is metatheoretical	7
1.5 Domain analysis is a multimethod paradigm	15
References	16
2 Domain analysis as a methodological paradigm in knowledge organization	19
2.1 A methodological paradigm in KO	19
2.2 Domain-analytical literature from the KO domain	20
2.3 Visualizing domain analysis as a methodological paradigm	28
References	33
3 Empirical methods for visualizing domains	41
3.1 Capturing a knowledge base	41
3.2 Taxonomy of domain-analytical approaches	42
3.3 An example: A pharmacy	44
3.4 Domain analysis is contextually driven	48
3.5 Operationalizing domains for analysis	48
References	50
4 Empirical techniques for visualizing domains	51
4.1 Introduction to empirical techniques	51
4.2 Evidentiary sources for citation analysis: <i>Web of Science</i> and <i>Scopus</i>	51
4.3 Evidentiary sources for citation analysis: Manual indexing	66
4.4 Citation analysis of a domain	69
References	88

5 Qualitative analysis: Cognitive work analysis	91
5.1 Qualitative methods for domain analysis	91
5.2 Cognitive work analysis	92
5.3 Two studies using CWA for knowledge organization	93
5.4 Qualitative analysis for greater perspective	94
References	95
6 Conclusions	97
6.1 Domain analysis has evolved in the KO community	97
6.2 What we have learned from KO domain analysis	98
6.3 Using existing evidence to generate domain analysis	99
References	102
Index	103
